

Important Levies to Support

HAMILTON COUNTY

Vote FOR Issue 9: Children's Services

Children's services are crucial to keeping children safe. This levy supports behavioral health services for youth served by Talbert House. The number of children served in custody in Hamilton County has increased by 41% in the last 3 years. The Children's Services Levy would help to provide a needed

increase in supportive services for abused and neglected children.

The key factors that contribute to children needing services are; untreated mental health issues, substance abuse, and domestic violence. The funds and services supported by this levy help keep children safe.

A vote for this levy is an investment in the children, families, and communities of Hamilton County.
